### **1.5 Statement for Students with Disabilities**

See the webpage, <http://www.math.purdue.edu/~walther/teach>.

### **1.6 Calculators**

Calculators are not allowed on any test.

## 2 Course Structure

If you disagree with the grading in any category, you need to resubmit the item in question **with a written explanation** stating *why* (and not just *that*) you deserve more credit.

### 2.1 Homework:

Webassign is due online Thursday evening 11:40pm. The other problems (with a \* on the assignment sheet, including all Matlab problems), will be collected every Friday in class. **No late assignments will be accepted.** Neither will homework deposited anywhere else.

The homework due in any given week is the homework corresponding to the material of the previous week. Homework must be readable and **must be stapled**. Illegible scribbles will receive no credit from the grader.

You are encouraged to attempt all the questions and discuss with your classmates. However, the write-up must be of your own.

### 2.2 Quizzes

There will likely be weekly quizzes.

### 2.3 Midterms:

There will be two midterms, **Friday, Oct 3** and **Friday, Nov 7**. Makeups may be given in extraordinary instances, but only with documented reasons.

### 2.4 Final Exam:

The Final Exam will be given during the Final Exam Week. The location and date of the final will be announced in class. All exams will be multiple choice.

### 2.5 Course Grade:

Your course grade will be determined using the following distributions:

HW	25%
2 Midterms, each	20%
Final	35%

### 2.6 Classroom Safety

In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances beyond the instructor's control. Here are ways to get information about changes in this course.
